Lost	7,814

EXECUTIVE INSIGHTS

1. High Churn Rate

Finding: Overall churn rate is 20.01%.
Meaning: Customer retention is a key business challenge.

2. High-Value Customers

Finding: High-Value customers contribute 27.8% of total revenue.
Meaning: Retention of high-value customers should be prioritized.

3. Return-Driven Attrition

Finding: Returning customers show a 23.3% churn rate.
Meaning: Return-related friction may affect retention.

4. Lost Customer Revenue Leak

Finding: Lost customers represent 29.2% of the customer base.
Meaning: Re-engagement should be prioritized.

5. Single-Item Purchasing

Finding: Average Order Value is \$2,725.37.
Meaning: Increasing basket size can improve customer value.

ACTIONABLE STRATEGIES

1. Reduce Churn

Target at-risk and lost customers with personalized re-engagement campaigns.

2. Strengthen Loyalty

Provide loyalty rewards for high-value and loyal customers.

3. Improve Category Performance

Focus campaigns on categories showing weaker retention or lower value.

4. New Customer Nurturing

Create onboarding and personalized offers for new customers.

5. Predictive Retention

Use customer behavior signals to identify churn risk early.
